FABRICS COMPARISON

UPHOLSTERY	COMPOSITION					MARTINDALE	PROTECTIVE LAYER (against dirt, stains and water)
	POLYESTER	COTTON	LINEN	VISCOSE	NYLON		
NATURE	42 %		18 %	40 %		20.000	✓
TRENDY	39 %	26 %		35 %		18.000	Teflon®
INFINITY					100 %	100.000	
NORWEGIA	35 %	65 %				10.000	
SENSE	100 %					25.000	✓
SOFTY	100 %					70.000	✓

INFINITY* – UNIQUE UPHOLSTERY

- **Extremely durable and resistant to rubbing**
Its nylon fibres are extremely hardy and resistant to rubbing. The resistance of over 100.000 Martindale cycles offers a certainty that the fabrics can be used for a very long period of time without any change in colour or properties.
- **Easy to care and resistant to stains and colour fading**
The fabric undergoes technological processes that produce a special protection barrier ensuring unbelievable resistance to stains and even most durable dirties that can be wiped off only with a sponge, soap and water without using any special cleaning substances.

- **Transfers air**
The fabric structure enables easy air movement.
- **Does not soak spilt liquids**
Due to its hydrophobic features, the fabric does not soak spilt liquids; drops simply gather on the surface. It is enough just to wipe off the spilt liquid, even if it is coffee, or wine.
- **The upholstery is flame retardant**
Reaches the cigarette test according to: EN 1021, BS 5852.

FURNITURE FUNCTIONS AND ADVANTAGES

Stylistica collection was created by highly qualified Polish and foreign designers. All products are all rights reserved.

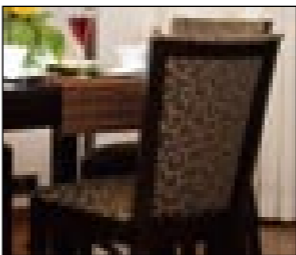

Chair and table legs are finished with felt feet protecting floors from scratching.

Stylistica collection comprises complete product lines, which create endless possibilities for interior furnishing.

Each piece of furniture purchased comes with a spare set of feet.

The offer includes modern stylish models for both those who appreciate avant-garde design and those who prefer classical styles.

The footrests on Florence bar stools are fitted with a metal bar, which protects them from scratching and staining.

In the production of chairs and tables we use solid beech, which is polished and lacquered. Selected models are made with the highest quality plywood.

All models have Remodex durability certificate. Most models comply with the DIN 68878, EN 13761, PN-EN 1022.

The fabrics used in the upholstery are selected by our stylists in line with the newest trends in the furniture market.

Paris 1 C chair is "3in1" – unusual design of Paris chair backrest allows for an easy and quick way of changing the chair look into three versions.

Special layer protects upholstery from staining by reducing the fabric absorbency factor, thus enabling spilt liquids to be wiped off straight after spilling.

All Stylistica models are recommended for domestic, restaurants and hotels interiors.

More information about dimensions, prices, finishes and other technical data in *CAFE & STYLISTICA PRICE LIST* and *CAFE & STYLISTICA FINISHES*.
Nowy Styl & Stylistica reserve the right to change the constructional features of the products advertised in the catalogue.
The colours of products and finishes may slightly differ from the colours printed in the catalogue.
